

How old are they?

Roman and Aisha have birthdays on the same day. On their birthday this year, Roman said: "Aisha is four times as old as me. In three years' time, he will be three times as old as me."

How old will Aisha be when she is twice as old as Roman?

Julie said to her friend:
"Yesterday Sarah was still 10.
Her 13th birthday will be next year."

When is Sarah's birthday?
