

Try it!

1. Complete these equations:

$10 - \underline{\quad} = 3$

$\underline{\quad} - 15 = 3$

$19 - 7 = \underline{\quad}$

$13 = 16 - \underline{\quad}$

2. Using the table below, Aisha wrote 4 equations.

$6 - 4 = 2$

$6 - 2 = 4$

$4 + 2 = 6$

$2 + 4 = 6$

What equations can you make using the table below?

3. Roman wrote down an equation

$16 - 9 = 7$

Can you write another subtraction equation using the same numbers?

Apply it!

1. Josh went to the shop with 20p. Which two items could he buy?

Cola 12p

MilkShake 14p

Milk 8p

Ice-Cream 6p

Pop-Corn 9p

2. Solve the following additions:

+

=

+

=

+

=

Fly with it!

1. These two ladybirds have lost their spots!

They had 5 spots before. How many different ways can you put their spots back on?

2. Look at the equations below:

$0 + 9 = 9$

$1 + 8 = 9$

$2 + \underline{\quad} = 9$

$\underline{\quad} + 6 = 9$

$4 + \underline{\quad} = \underline{\quad}$

$\underline{\quad} + \underline{\quad} = \underline{\quad}$

What will the next three equations be?

3. Fill in the missing numbers:

$8 + \underline{\quad} = 9$

$9 - \underline{\quad} = 8$

Work them out using your fingers!
